

## Daybreak Completes Well in Saxet Deep Field

Spokane, Washington- May 25, 2006- Daybreak Oil and Gas, Inc. ( OTC Bulletin Board: DBRM. OB) a Washington Corporation, today announced that Daybreak and their partners have successfully re-entered a well in the Saxet Deep Field in Nueces County, Texas. This is the first well in a five well re-entry program, all with multi-zone potential. These wells are on a 320 acre lease within the city limits of Corpus Christi. The Saxet Deep Field had produced since the 1940's. Full evaluation of the well remains to be done, however initial flow rates are promising.

Daybreak and their partners are currently negotiating a contract for the sale of natural gas from the well's production. Daybreak has a net interest of 20% in this well.

In the Company's ongoing San Patricio County, Texas project, review of recently acquired 3-D seismic data has revealed a sizeable Frio Sand prospect. Daybreak and their joint venture partners are currently evaluating the next stages of this project.

Robert Martin, Daybreak President, believes both of these projects will have a significant impact on Daybreak's bottom line.
